

JUNO4Me

BIRTH CONTROL THAT WORKS.

Juno4Me gives young women a chance to choose when they're ready to parent, be powerful in their own lives, and pursue futures full of possibility without the risk of an unplanned pregnancy.

Juno4Me is a no-cost resource for young women who are seeking to prevent an unplanned pregnancy by using a safe and effective long term, reversible form of contraception—namely an Intrauterine Device (IUD) or Contraceptive Implant. **Our online platform identifies trusted, highly skilled providers of IUDs and Implants in Chicago and connects them with the young women who are in need of their services.** We also arrange for the payment of the related medical screenings, the cost of the device and procedure (including removal), as well as transportation to and from the provider, as needed.

THE PROBLEM:

45% OF PREGNANCIES ARE UNPLANNED*

- More than ½ of these women reported using some type of birth control the month they found out they were pregnant.
- The average woman with 2 children spends 3 decades trying to prevent a pregnancy.
- Mistimed and closely spaced pregnancies have higher risk of poor health.

1 OUT OF 3 CLINICS DON'T OFFER BIRTH CONTROL**

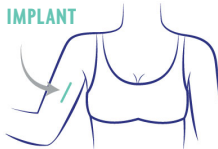

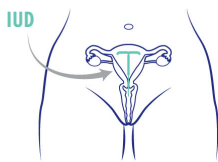

- In Illinois, about 30% of healthcare entities do not provide modern birth control for religious reasons.
- Inaccurate or partial counseling is not okay. We believe in science and facts.

55% STRUGGLE WITH THE COST OF BIRTH CONTROL***

- The average cost of an IUD or Implant is \$500–\$1000.
- Nobody should have to choose between paying for birth control or paying for groceries or utilities.

JUNO4ME IS THE SOLUTION:
